EDUCATION

Muffakham Jah College of Engineering and Technology   **2021-2025**
Bachelors in Computer Science Engineering

Relevant Courses: Data Structures and Algorithms, Object-Oriented Programming, Database Management Systems,Operating Systems, Software Engineering,Computer Networks, Full Stack Web Development,Machine Learning.

PROJECT EXPERIENCE

MERN Stack-Based Ride-Sharing Web Application

Developed a fully functional Uber clone with user authentication, ride booking, and payment integration. Implemented real-time location tracking using Google Maps API and optimized the user interface for a smooth experience.

Gemini Clone

Created a clone of Gemini, a cryptocurrency trading platform, with features such as real-time price updates, user login, and account management. Focused on front-end development using React and styled components.

TECHNICAL SKILLS

- **Languages:** Python, JavaScript
- **Web Technologies:** HTML, CSS, React, Node.js, Express, MongoDB
- **Version Control:** Git, GitHub
- **Tools:** Visual Studio Code, Postman
- **Databases:** MongoDB, MySQL
- **Others:** RESTful APIs

LEADERSHIP EXPERIENCE

- Led a team of 4 members to develop a mini project focused on Stock Price Prediction using LSTM Model
- Managed project timelines, coordinated tasks, and ensured the project was completed within the given deadline.
- Demonstrated strong communication and problem-solving skills by collaborating with teammates and resolving technical challenges
